

## OUR RAIN SHIELD WILL NOT LEAK

Our 175 pound (79.5 kilogram) capacity game bird feeder solves the persistent problem of keeping rain out of the feed trough. The rain shield interlocks with the body. The seamless upper shell of the body steps out over the rain shield such that rain would have to climb vertically for any leakage to occur.

Our Model GBF175 game bird feeder is molded from polyethylene. Hindered amine light stabilizer, the most potent ultraviolet protection, is added to maximize the life of your investment. We surveyed some of our game bird raising customers and reviewed their comments carefully when we designed these features...

Body has a fall away taper to facilitate feed flow.

8 inch (20.3 cm) rainshield can be adjusted for height.

**A quail pan is available.  
 Order Model GBF175Q**

Cover fingerhold for easy removal.

3.5 inch (8.9 cm) vertical surface helps cover stay in place in strong winds.

Adjustable feed slide can be set for feeds of varying flow-ability.

Pan has a 6 inch (15.2 cm) cone in the bottom to provide good cleanout.

Add capacity with either Model GBF1515 Galvanized Steel Extension or GBF1520 Poly Extension. Add-on shell fits over the rain shield. The top poly shell fits over either add-on shell. Either shell adds about 17" (43.2 cm) of height and about 130 pounds (59.1 kg) of feed capacity depending upon the feed being used. Total capacity with either extension is about 305 pounds (138.6 kg).

### GAME BIRD SPECIFICATIONS

Model No.	Description	Approx. Feed Capacity	Approx. Bird Capacity	Overall Size <sup>1</sup>	Shipping Wt.	
					Pack <sup>2</sup>	Lbs. (kg)
GBF175	Game Bird Feeder	175 lbs. (79.5 kg)	125 Pheasant	37" Dia x 36" to 40" H	2	73 lb. (33.2)
