

## Smart Cow Brush

J&D's Smart Cow Brush is a valuable and efficient tool for increasing cow health, happiness and production. With its large curved brush and stimulating poly bristles, J&D's Smart Cow Brush has your cows comfort covered.

### Smart Features

- Energy saving motion and thermal sensor triggers auto start and auto stop
- To ensure long bristle life and even wear, each time brush is activated it switches rotation direction
- 15 minute run time to prevent one cow hogging the brush
- Built in safety feature senses resistance and automatically reverses brush direction to allow for quick and safe release
- Thermal overload protected

**Highly Recommended by Veterinarians**

Automated cow brushes do more than just scratch an itch they also

- increase circulation
- remove
  - filth
  - parasites
- decrease
  - boredom
  - stress
  - abnormal behaviors

All of which make for a healthier and happier cow.

A happy healthy cow is a better producing cow.

Top View of Swing Away Mount

Release pin lock and swing brush 90° in either direction to allow for unhindered access by machinery.

# Smart Cow Brush

## Brush Features

- Over 44" of brush height to reach areas that many other brushes miss
- For increased coverage, relief, and stimulation the hourglass shaped brush conforms to the shape of the cow giving more top to bottom brush contact
- Durable poly bristles are stiff and tightly packed for long life and continuous, comfortable and therapeutic use
- Universal joint allows the brush to swing freely with 360° rotation
- Corrosion resistant stainless steel brush shaft

## Control Features

- No user settings - Just apply power and turn it on
- NEMA 4X enclosure to protect the electronics from the harsh barn environment
- Easy to identify emergency stop safety switch

## Motor Features

- Powerful ¾ HP fan cooled motor stays cool, extending motor life
- Dual voltage (115V or 230V single-phase)
- Covered by a **One Year Warranty**

Rigid Mount

Swing Away Mount

## Arm Features

- Choose standard rigid arm model or convenient swing away arm model that with a pull on the spring loaded pin and a push, the arm with brush can be swung out of the way allowing unobstructed machinery traffic
- Mount to wall, square column, or purchase the optional CBP100 and mount to a 4" round post
- Durable powder coated steel frame arm
- Easy to install and setup
