

# Arctic Whirl Fan

56" Ceiling Circulation

The Arctic Air industrial-grade ceiling fans are outdoor rated and moisture resistant. These ceiling fans are built using high-quality industrial materials, and designed to withstand rugged environments. While operating at optimal efficiency at ceiling heights ranging from 10 to 30 feet, these are a great solution in damp, indoor locations.

Not Included

## FEATURES

- Double heat seal bearings
- Forward/reverse motor
- Dust resistant
- Moisture resistant motor
- 56", 3-blade design
