

Wind Tunnel Fan

72" Fiberglass Exhaust

FARMER BOY®

 **ARCTIC AIR®**

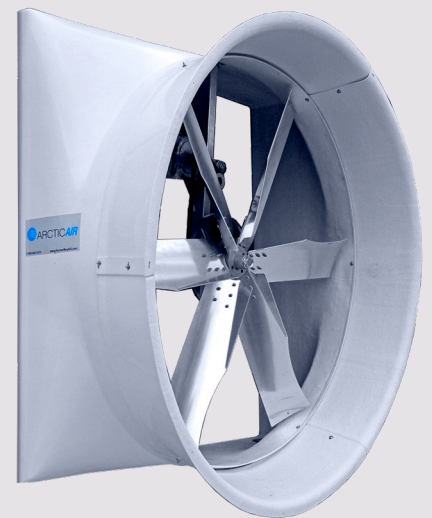

A high-quality exhaust fan system is an important keystone in creating an Animal-Centered Environment. Arctic Air Wind Tunnel Exhaust Fans remove unwanted odors, moisture, and other pollutants to improve air quality for people and animals. A high-quality exhaust fan system serves as one of the keystones in creating a safe animal-centered environment.

Various configurations and customizable attributes allow the Wind Tunnel Fans to adapt to a variety of applications. Air Flow Ratio (AFR) improved technology provides greater efficiency and superior air-moving performance.

FEATURES

- Low maintenance, cost-effective, high-performance exhaust fan
- Comes complete with cone
- Extremely quiet operation on all speeds
- Automatic belt tensioner
- Corrosion resistant fiberglass housing
- Totally enclosed, maintenance free, high-efficiency motor
- 3 Year Manufacturer's Motor Warranty
