PRODUCT FEATURES & BENEFITS

GROUP HOUSING

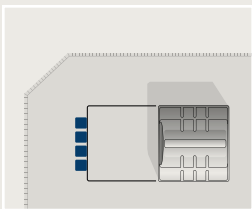

“Our family has always trusted Calf-Tel to raise our calves. They are durable, easy to clean and there is a hutch to fit anyone’s operation. I wouldn’t want to raise our calves in any other hutch!”

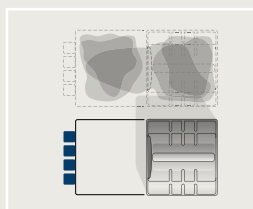

DARCY STEFFES

COMMON WAYS THE 54|98 IS USED:

Prepared Site: Place the 54|98 on a well-drained surface (gravel, crushed stone or sand). This will keep calves dry and healthy. Outside fencing required.

Rotating Site: Place one 54|98 in a small pasture and move the unit and its pen periodically.

For Fence options see page 30

Large Common Pasture: Place multiple 54|98 in a large pasture with bigger groups. Position the units near each other, as the herd will not separate to housing in different locations.

CELEBRATING
40
YEARS

WITH THE HELP OF RESEARCH FROM CALF PROFESSIONALS LIKE YOU, CALF-TEL DEVELOPED OUR FIRST GROUP HOUSING OPTION IN 1997.

As we learned how calves benefit from socializing with their peers, our offerings expanded into fencing to help farmers raise healthy, productive future herd members.
