

ENVIRONMENTAL ENRICHMENT FOR PIGS

“Pigs interact with the EASYFIX LUNA up to 80% of the time. The combination of mobility and rollability retains the pigs interest and motivates other pigs to join in.”

EASYFIX LUNA

The new EASYFIX Luna range of floor products are designed to provide environmental enrichment for pigs. There are four products in the new range, developed specifically for piglets, weaners, finishers and sows.

Made from high quality natural rubber, the products are pliable, durable and safe for pigs to bite on. They are working extremely well on university research farms and commercial farms in Ireland and Germany.

BENEFITS	FEATURES
<ul style="list-style-type: none">• Environmental enrichment helps to reduce tail, ear and side biting.• The pig enrichment devices remain at floor level, imitating the pig’s natural posture and behaviour.• Up to 6 pigs can interact with the device at the same time.• The Luna combines mobility and rollability, whilst always remaining in reach.• No cleaning required.• Non-toxic.	<ul style="list-style-type: none">• Made from a high quality natural rubber compound.• Unique design with 12 protruding rubber legs.• Only 3 legs are in contact with the floor at any time.• Brightly coloured for easy observation in the pen.
