

## GAS-FIRED INFRARED HEATER GASOLEC M8

- + Direct heat to the chicken and litter
- + Creating comfort zones
- + Less mortality
- + Reliable
- + Up to 1300-1500 DOC, depending on the height and environmental temperature
- + Low gas consumption
- + Easy operation and installation
- + Adjustable heat output
- + Two heaters on one gas cylinder or bottle possible
- + Can be connected to a Climate Control system or thermostat (with High-Low regulator system)

# GAS-FIRED INFRARED HEATER GASOLEC M8

Manual Controller

Thermostat

High-Low Regulator

## TECHNICAL SPECIFICATIONS

- Power adjustable from 0,6 till 5 kW
- Gas consumption Propane/LPG from 43 till 360gr/hour (with regulator)
- Also versions in 1.0, 1.5 and 3 kW
- Stainless Steel, can be cleaned with high pressure water and/or detergents
- Weight 1.500 kg
- Length 550mm, width 240mm height 160mm
- Standard with Stainless Steel filter
- Made in Holland

Gas consumption for 1 kW: 1kW = 866kcal = 3460BTU/h, I3P / G30 72 gram of Propane/h, I2E / G20 0.090m<sup>3</sup>/h of Natural Gas High, I2L / G25 0.108m<sup>3</sup>/h of Natural Gas Low
